QUARTERLY RESULTS

GOOD OPERATING PERFORMANCE OF THE BUSINESSES IN SPITE OF LOWER REVENUE FROM INVESTMENTS

Grupo SURA reported to the market the results for the first quarter of 2018, in which it underlines an operational growth of the affiliates Suramericana and SURA Asset Management, así and a beginning of the year marked by market volatility. This external effect was reflected in lower yields for its own investment portfolios that back the insurance and pensions businesses.

The Company had consolidated revenue for COP 4.76 billion (USD 1,666 million), a decrease of 2.2% (COP 105,137 million or USD 36.8 Compared to January-March 2017.

This behavior is partially explained by a 47% reduction in revenue from investments (COP 253,497 million or USD 88.7 million. It also indicated that the revenue from the previsional insurance in Colombia was no longer received because Suramericana withdrew from that product to focus on other solutions more in keeping with its strategy.
