### Note 1.2. Legal and regulatory restrictions

The subsidiaries of Grupo SURA do not have any restrictions on transferring funds in the form of cash dividends, loan repayments, or advances to Grupo de Inversiones Suramericana S.A., except for their legal reserves.

Grupo SURA has no significant restrictions on their ability to access or use their assets and settle their liabilities other than those resulting from regulatory frameworks, which require a minimum regulatory capital.

### Note 1.3. Unconsolidated structured entities

The term "unconsolidated structured entities" refers to all structured entities in which Grupo SURA participates but which are not controlled by the group. Grupo SURA enters transactions with unconsolidated structured entities in the normal course of business to facilitate client transactions and for specific investment opportunities.

The following table shows the total assets in "unconsolidated structured entities", in which Grupo SURA has an interest as of the reporting date and its maximum exposure to loss in relation to such interests:

	Managed funds (1)	
	March 31, 2026	December 31, 2025
<b>Grupo SURA asset exposure</b>		
Investments at fair value through profit or loss	5,329,920	5,367,207
<b>Maximum exposure Grupo SURA</b>	<b>5,329,920</b>	<b>5,367,207</b>

(1) Represents the participation of Grupo SURA in the managed pension funds that must be mandatorily held in each of the countries: Colombia, 1.00%; Chile, 1.00%; Mexico, 0.53%; Peru, 1.00% and Uruguay, minimum 0.50% - maximum 2%. The balance is included in investments measured at fair value through profit or loss, Note 6.1.2.

Details of investments by country are as follows:

	March 31, 2026	December 31, 2025
Colombia	2,010,074	1,976,313
Peru	482,989	491,403
Chile	1,604,135	1,668,326
Mexico	1,194,124	1,191,280
Uruguay	38,598	39,885
<b>Total</b>	<b>5,329,920</b>	<b>5,367,207</b>

In the normal course of its operations, some subsidiaries are asset managers that manage pension funds, which by regulation must maintain a participation in each of the funds under management, called "encaje" (in Spanish Original). As a result of this administration, commissions are received, according to the conditions of each fund or asset under management.

The obligations of these entities in the management of these assets are average and do not guarantee results. The maximum exposure to the risk of loss is the amount of the investment held in these funds, which may be affected by inefficiencies in management and in the variation of the funds' results, which are mainly impacted by the valuation of the assets under management.

## NOTE 2. BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

### Note 2.1. Statement of compliance

The consolidated financial statements of Grupo SURA as of December 31, 2025, and the interim consolidated financial statements as of March 31, 2026, and for the periods ending March 31, 2026, and March 31, 2025, have been prepared in conformity with the accounting and financial reporting standards accepted in Colombia established in Colombia by Law 1314 of 2009, regulated by Decree 2420 of 2015 “Single Regulatory Decree on Accounting and Financial Reporting Standards and on the Assurance of Information” (*Decreto Único Reglamentario de las Normas de Contabilidad y de Información Financiera y de aseguramiento de la información. Spanish original*) and other amending decrees. These accounting and financial reporting standards correspond to the International Financial Reporting Standards (IFRS) published by the International Accounting Standards Board (IASB), in the versions accepted by Colombia through the decrees. The application of these international standards in Colombia is subject to some exceptions established by the regulatory bodies and contained in Decree 2420 of 2015 and the other amending decrees. Grupo SURA did not make use of any of the exceptions to IFRS that are set out in these decrees.

### Note 2.2. Basis of presentation

The accompanying interim consolidated financial statements of Grupo SURA include the statement of financial position as of March 31, 2026, and as of December 31, 2025, and the statement of changes in equity, the statement of income, the statement of comprehensive income and the statement of cash flows for the periods ending March 31, 2026, and March 31, 2025.

These consolidated financial statements are prepared in accordance with IAS 34 and should be read together with the consolidated financial statements as of December 31, 2025, and are presented in accordance with IAS 1. Some notes have been included to explain events and transactions that are relevant to understanding the changes in the Grupo SURA's financial situation, as well as its operational performance since December 31, 2025.

Grupo SURA has prepared the consolidated financial statements under the assumption that it will continue to operate as a going concern.

The consolidated financial statements have been prepared on the historical cost basis, except for:

- Derivate financial instruments and financial instruments measured at fair value through profit or loss or through other comprehensive income,
- Financial liabilities measured at amortized cost using the effective interest rate,
- Employee benefits, which are measured at the present value of the defined benefit obligation,
- Investments in associates measured using the equity method,
- Investment properties measured at fair value,
- Property and equipment (land and buildings) measured at fair value, and
- Non-current assets held for sale, which are measured at the lower carrying value at the date of transfer and fair value less estimated costs to sell.

The consolidated statement of financial position presents assets and liabilities based on their liquidity, since it is considered that this provides reliable information that is more relevant than that provided by an approach based on the distinction between current and non-current items.

## CONSOLIDATED FINANCIAL STATEMENTS

---

The consolidated income statement and consolidated other comprehensive income are presented separately. The items in the income statement are disclosed according to the nature of expense methods, since it is considered that this provides reliable and more relevant information.

The consolidated cash flow statement is presented using the indirect method, whereby cash flows from operating activities are determined by adjusting profit for the effects of items not affecting cash flow, net changes in assets and liabilities relating to operating activities and any other effects of items not classified as investing or financing activities. Interest in income and expenses, except for debt, are presented as components of operating activities.

### Note 2.2.1. Presentation currency

The consolidated financial statements are presented in millions of Colombian pesos, unless otherwise indicated. The functional currency of Grupo de Inversiones Suramericana S.A. is Colombian peso, the currency of the primary economic environment in which it operates, and which also reflects the currency that influences the structure of its costs and revenues.

Each subsidiary determines its own functional currency and includes items in its financial statements using that functional currency. The assets, liabilities, income and expenses of the foreign subsidiaries, as well as the income and expenses in foreign currency of Grupo de Inversiones Suramericana S.A., have been converted into Colombian pesos at the market exchange rates at the end of the period and the average for the period, as detailed in Note 2.3.2.

### Note 2.2.2. Hyperinflation

As of March 31, 2026, the cumulative inflation rate in Argentina over the last three years, calculated using different combinations of retail price indexes, has exceeded 100%, meaning that Argentina has a hyperinflationary economy. The subsidiaries located in Argentina present their financial statements adjusted for inflation according to the provisions of IAS 29 - Financial Reporting in Hyperinflationary Economies. Consequently, the financial statements of the Argentine subsidiaries and the corresponding figures for prior periods have been restated to reflect changes in the general purchasing power of the functional currency and, as a result, are expressed in terms of the measuring unit prevailing at the end of the reporting periods.

Except for the above, these consolidated financial statements do not include inflation adjustments.

### Note 2.3. Principles of consolidation

The interim consolidated financial statements include the financial statements of Grupo de Inversiones Suramericana S.A. and all its subsidiaries. Subsidiaries are entities over which control is exercised either directly or indirectly. The list of subsidiaries can be found in Note 1.1.

Control is exercised by another entity if, and only if, all the following elements are met:

- Power over the entity in which it has an interest, which gives it the current ability to direct its relevant activities, that is, activities that significantly affect its performance,
- Exposure, or entitlement, to variable returns from its involvement in the investee, and
- Ability to use its power over the investee to influence the amount of the returns to the investor.

## CONSOLIDATED FINANCIAL STATEMENTS

---

In general, there is a presumption that most voting rights results in control. To support this presumption, when Grupo de Inversiones Suramericana S.A. has less than a majority of the voting or similar rights of an investee, it considers all relevant facts and circumstances to assess whether it has power over an investee.

For consolidation purposes, the financial statements of all subsidiaries are prepared under the same accounting policies and the same accounting principles as Grupo de Inversiones Suramericana S.A.

Subsidiaries are included in the consolidated financial statements from the date of acquisition and transfer of control and are excluded from consolidation on the date on which control is lost. On the acquisition date, the excess of the acquisition cost over the share in the net fair value of the identifiable assets, liabilities and contingent liabilities assumed from the associate or joint venture is recognized as goodwill. Goodwill is included in the book value of the investment.

All significant intragroup transactions and balances have been eliminated on consolidation.

Transactions (purchases and sales) involving a change in the percentage of ownership of subsidiaries without loss of control are recognized in equity. Cash flows or payments to non-controlling interests arising from changes in ownership interests that do not result in a loss of control are classified for the statement of cash flows as financing activities.

In transactions involving a loss of control, the entire shareholding in the subsidiary is derecognized, any retained shareholding is recognized at its fair value and the gain or loss resulting from the operation is recognized in the results for the financial year, including the corresponding items of other comprehensive income. Cash flows arising from the acquisition or loss of control of a subsidiary are classified as investing activities in the cash flow statement.

When a subsidiary is held for sale or its operations are discontinued, but control is still retained, its assets and liabilities are classified as assets held for sale and presented as a single line item in the statement of financial position. The results of discontinued operations are presented separately in the consolidated statement of profit or loss.

### Note 2.3.1. Non-controlling interests

Non-controlling interests correspond to the percentage interest of third parties in subsidiaries.

Non-controlling interests in the net assets of consolidated subsidiaries are presented separately within consolidated equity. The profit for the period and each component of other comprehensive income are attributed to the owners of the parent and to non-controlling interests.

### Note 2.3.2. Foreign currency

Foreign currency transactions are initially recorded at the functional currency exchange rates prevailing on the transaction date. Subsequently: (a) monetary assets and liabilities denominated in foreign currency are translated at the functional currency exchange rate in effect at the reporting date; (b) non-monetary items measured at fair value are translated using the exchange rates in effect on the date their fair value is determined; and (c) non-monetary items measured at historical cost are translated using the exchange rates prevailing on the date of the original transactions.

## CONSOLIDATED FINANCIAL STATEMENTS

All foreign exchange differences are recognized in the income statement, except for those arising from the translation of foreign operations and the application of hedge accounting, which are recognized in other comprehensive income until the disposal of the foreign operation or the termination of the hedge, at which point they are recognized in the income statement for the period.

For the presentation of the consolidated financial statements, the assets and liabilities of foreign operations, including goodwill and any fair value adjustments to assets and liabilities arising from acquisitions, are translated into Colombian pesos at the exchange rate prevailing at the reporting date. Income, costs, expenses, and cash flows are translated at the average exchange rates for the period, while equity is translated at the historical exchange rate.

The exchange rates observed in the market at the end of the period and the average for the period used for the translation were as follows:

### Note 2.3.3. Loss of control over EPS Suramericana S.A., subsidiary of Suramericana S.A.

Since June 2024, an accounting treatment was established for the subsidiary EPS Suramericana S.A. within the framework of the interpretation and scope of international financial reporting standards, especially regarding IFRS 10 - Consolidated Financial Statements, defining and interpreting that control over the stake in said subsidiary has been lost and therefore it has been excluded from the scope of consolidation. This situation continues in the context of the preparation and presentation of these consolidated financial statements as of March 31, 2026.

The decision not to consolidate the subsidiary EPS Suramericana S.A. means that since June 2024 this investment has been classified as a financial instrument measured at fair value with changes in other comprehensive income and that additionally it will be measured at \$0 (zero Colombian pesos) because there are no additional obligations to cover on this investment and it is not considered probable that in the future it will generate obligations that will affect the liquidity of Suramericana S.A., its direct parent company, or for Grupo de Inversiones Suramericana S.A. These considerations remain in effect until December 31, 2025.

As a result of the process of loss of control and deconsolidation and under the circumstances described above, the investment was classified as a financial instrument measured at fair value through other comprehensive income. Carrying value as of March 31, 2026, is \$0 (as of December 31, 2025 - \$0)

Considering the importance of Suramericana S.A. as the direct controller and Grupo de Inversiones Suramericana S.A. as the indirect controller of EPS Suramericana S.A., below is a summary of the financial information of this subsidiary as of March 31, 2026, and December 31, 2025:

	Total assets	Total liabilities	Total assets, net	Result for the period
March 31, 2026	2,872,420	2,609,891	262,529	135,232
December 31, 2025	2,714,605	2,587,309	127,296	65,215

The positive results reported by EPS Suramericana S.A. are basically due to the increased efforts made to control claim rates in the subsidiary. This situation does not affect the fair value of the financial instrument, given the short-term performance projections and the understanding that no additional obligations need to be covered.

### Note 2.4. Significant accounting policies

The accompanying interim consolidated financial statements as of March 31, 2026, have been prepared using the same accounting policies, measurements and bases used for the preparation and presentation of the consolidated financial statements as of December 31, 2025, which are duly disclosed in the financial statements presented at the closing of this year, except for the new standards and interpretations, and amendments applicable as of January 1, 2026.

The adoption of the new standards effective as of January 1, 2026, mentioned in Note 4.1, did not result in significant changes to these accounting policies compared to those used in the preparation of the consolidated financial statements as of December 31, 2025, and there were no significant impacts on their adoption.

## CONSOLIDATED FINANCIAL STATEMENTS

### Reclassifications

1. For comparative purposes in the statement of profit or loss and the statement of cash flows, certain reclassifications have been made in relation to the financial statements disclosed as of March 31, 2025, as a result from the following operations:
  - The disclosed as discontinued operations as of March 31, 2026, of the subsidiary Disgely S.A. This discontinued operation is controlled by the subsidiary Sura Asset Management S.A., as described in Note 11.3.1.,
  - The disclosed of the investment in Arus S.A.S as non-current asset held for sale, and the disclosed of its results as a net result of non-current asset held for sale, as described in Note 11.3.

The management of Grupo SURA considers that these reclassifications do not affect the reasonableness of the information presented and disclosed as of March 31, 2025.

2. To improve the presentation and comparability of the cash flow statement information, some figures of the cash flow statement disclosed as of March 31, 2025, have been reclassified because of a change between operating activities and the figures that reconcile the net profit for the period corresponding to insurance technical reserves and other minors.

These reclassifications are considered immaterial and do not affect the reasonableness of the information presented and disclosed as of March 31, 2025, because it does not change the total of operational activities.

### **NOTE 3. SIGNIFICANT ACCOUNTING JUDGMENTS, ESTIMATES, AND CAUSES OF UNCERTAINTY IN THE PREPARATION OF THE FINANCIAL STATEMENTS**

The preparation of financial statements requires the use of judgments, estimates, and assumptions that impact on the reported amounts of income, expenses, assets, and liabilities, and disclosure of contingent liabilities at the end of the year; however, uncertainty about these assumptions and estimates could result in outcomes that would require material adjustments to the carrying amounts of affected assets or liabilities in future periods. Significant estimates and assumptions are reviewed regularly, and their results are recognized in the period in which the estimate is revised, and in the future periods impacted.

The determination of these estimates and assumptions is subject to internal control procedures and approvals, for which internal and external studies, industry statistics, environmental factors and trends, and regulatory and normative requirements, among others, are considered.

Estimates have been made based on the best available information on the events analyzed at the date of preparation of the financial statements, which may result in future modifications due to possible situations that may occur and that would require recognition prospectively, which would be treated as a change in an accounting estimate in future financial statements.

## CONSOLIDATED FINANCIAL STATEMENTS

---

The accompanying consolidated financial statements for the interim periods ending on March 31, 2026, have been prepared using the same judgments, estimates, and assumptions used for the presentation of the financial statements as of December 31, 2025. These judgments, estimates, and assumptions are duly disclosed in the consolidated financial statements presented at the end of that year

### NOTE 4. NEW AND AMENDED STANDARDS AND INTERPRETATIONS

#### Note 4.1. New and amended standards and interpretations issued

Grupo SURA applied new interpretations and amendments to IFRS issued by the International Accounting Standards Board (IASB), which are effective for periods beginning on or after January 1, 2026. The new standards adopted are as follows:

Standard	Description	Applicable period / Impact
Annual improvements to IFRS accounting standards	This document introduces several minor amendments to IFRS 1 First-time Adoption, IFRS 7 Financial Instruments: Disclosures, IFRS 9 Financial Instruments, IFRS 10 Consolidated Financial Statements, and IAS 7 Statement of Cash Flows. These amendments include clarifications, updates on cross-referencing within standards and outdated references, changes to illustrative examples, and adjustments to the wording of certain paragraphs to enhance the understandability of these standards and avoid ambiguities in their interpretation.	These changes of this amendment had no impact on the financial statements.
Amendment to IFRS 9 and IFRS 7 - Amendments to the Classification and Measurement of Financial Instruments	<p>This Amendment clarifies the classification of financial assets with environmental, social, corporate governance and similar characteristics. According to the characteristics of contractual cash flows there is confusion whether these assets are measured at amortized cost or at fair value.</p> <p>With these amendments, additional disclosure requirements have been introduced to improve transparency for investors regarding investments in equity instruments designated at fair value through other financial instruments and comprehensive income with contingent characteristics; for example, aspects related to environmental, social and corporate governance issues.</p>	These changes of this amendment had no impact on the financial statements.

Standard	Description	Applicable period / Impact
	Additionally, these amendments clarify the derecognition requirements for the settlement of financial assets or liabilities through electronic payment systems. The amendments clarify the date on which a financial asset or liability is derecognized.	
Amendment to IFRS 9 and IFRS 7 – Contracts referencing electricity that depends on nature.	<p>In this amendment, the IASB makes some modifications to the disclosures that companies must make when using electricity contracts that depend on nature as hedging instruments.</p> <p>Key aspects of this amendment include:</p> <ul style="list-style-type: none"> <li>- Clarifying the application of the own-use requirements,</li> <li>- Allowing hedge accounting when these contracts are used as hedging instruments, and</li> <li>- Adding new disclosure requirements that enable investors to understand the effect of these contracts on a company's financial performance and cash flows.</li> </ul>	These changes of this amendment had no impact on the financial statements.

### Note 4.2. New and amended standards and interpretations issued and not yet effective

Grupo SURA has not early adopted the following new and amended Standards, which have already been issued by the International Accounting Standards Board (IASB) but are not yet effective in Colombia as of the date of issuance of the financial statements:

Standard	Description	Applicable period / Impact
IFRS 18 – Presentation and Disclosure in Financial Statements	This standard replaces IAS 1 – Presentation of Financial Statements, carrying forward many of its requirements without significant changes. It aims to help investors analyze the financial performance of entities by providing more transparent and comparable information to make better investment decisions.	January 1, 2027, with early adoption permitted. The Company is evaluating the impact of the application of this IFRS.

## CONSOLIDATED FINANCIAL STATEMENTS

---

Standard	Description	Applicable period / Impact
	<p>It introduces three sets of new requirements:</p> <ul style="list-style-type: none"> <li>- Improved comparability of the income statement, as there is currently no specific structure for it. Entities choose the subtotals they want to include, declaring an operating result, but the way it is calculated varies from one entity to another, reducing comparability. The standard introduces three defined categories of income and expenses (operating, investing, and financing) to enhance the income statement's structure and requires all entities to present newly defined subtotals.</li> <li>- Greater transparency of management-defined performance measures: Most entities do not provide enough information for investors to understand how performance measures are calculated and how they relate to the subtotals in the income statement. The standard requires entities to disclose explanations about specific measurements related to the income statement, referred to as management-defined performance measures.</li> <li>- A more useful grouping of information in the financial statements: analysis of results by investors is hampered if the information disclosed is too summarized or detailed. The standard provides more detailed guidance on how to organize the information and its inclusion in the main financial statements or in the notes.</li> </ul>	
<p>IFRS 19 - Subsidiaries without public accountability: Disclosures</p>	<p>Simplifies reporting systems and processes for entities, reducing the costs of preparing financial statements of subsidiaries, while maintaining the usefulness of those financial statements for their users.</p> <p>An amendment to IFRS 19 was published in August 2025, expanding its scope to include changes introduced in standards issued between February 2021 and May 2024.</p>	<p>January 1, 2027. No significant impacts are expected from the application of this IFRS.</p>

Standard	Description	Applicable period / Impact
	<p>Subsidiaries that apply IFRS for SMEs or national accounting standards in preparing their financial statements frequently have two sets of accounting records because the requirements of these standards differ from those of IFRS Accounting Standards.</p> <p>This standard will address these challenges in the following manner:</p> <ul style="list-style-type: none"> <li>- Allowing subsidiaries to have a single set of accounting records to meet the needs of both their parent company and the users of their financial statements; and</li> <li>- Reducing disclosure requirements and tailoring them to the needs of the users of their financial statements.</li> </ul> <p>A subsidiary applies IFRS 19 if, and only if:</p> <ul style="list-style-type: none"> <li>- It does not hold public accountability (generally, it is not publicly traded and is not a financial institution); and</li> <li>- The intermediate or ultimate parent of the subsidiaries produces consolidated financial statements that are available for public use and comply with IFRS Accounting Standards.</li> </ul>	
<p>Amendment to IFRS 19 - Subsidiaries without public accountability: Disclosures.</p>	<p>This amendment complements the work to update of this standard and includes reduced disclosure requirements for other standards or amendments issued up to February 2021.</p> <p>New modifications of this amendment include reducing the disclosure requirements specifically in:</p> <ul style="list-style-type: none"> <li>- IFRS 18 Presentation and Disclosure in Financial Statements,</li> <li>- Financing agreements with suppliers (modifications IAS 7 and IFRS 7),</li> <li>- International tax reform (changes IAS 12),</li> <li>- Absence of interchangeability (modifications IAS 21), and</li> <li>- Modifications to the classification and measurement of financial instruments (modifications IFRS 7 and 9).</li> </ul>	<p>January 1, 2027. No significant impacts are expected from the application of this amendment.</p>

## CONSOLIDATED FINANCIAL STATEMENTS

Standard	Description	Applicable period / Impact
	<p>With these modifications, IFRS 19 reflects the changes in IFRS that will come into effect on January 1, 2027, when the standard becomes effective.</p>	
<p>Amendment to IAS 21 – Conversion to a hyperinflationary presentation currency.</p>	<p>The objective of this amendment is to clarify the different types of accounting treatments that should be given in two cases about which the standard was not sufficiently clear.</p> <ul style="list-style-type: none"> <li>- When an entity presents its financial statements in a hyperinflationary economy currency and converts the results from a foreign operation into non-hyperinflationary economy currency.</li> <li>- When an entity, with functional currency corresponds to a non-hyperinflationary economy, presents its financial statements in a hyperinflationary economy currency.</li> </ul> <p>This amendment clarifies the economic reality of the entities so as not to affect the comparability and understanding of financial information for the users.</p>	<p>January 1, 2027. No significant impacts are expected from the application of this amendment.</p>
<p>Modifications to the illustrative examples to IFRS 7, IFRS 18, IAS 1, IAS 8, IAS 36 and IAS 37.</p>	<p>The general objective of these amendments is to mitigate the uncertainty that generates regarding the applicability of these standards.</p> <p>This helps the entities to identify, measure and disclose financial information more clearly and consistently.</p> <p>It provides support for the application of the new IFRS 18 standard, which will be in effect from 2027, and provides greater comparability, clarity, and usefulness of financial information to meet the needs of users of financial statements.</p>	<p>January 1, 2027. No significant impacts are expected from the application of this amendment.</p>

**Note 4.3. New and amended standards and interpretations issued but not yet applied**

New standards and interpretations that have been published and issued as of January 1, 2025, but have not been applied by Grupo SURA at the date of disclosed of these financial statements are presented below. Grupo SURA will adopt these standards on the date they become effective, according to the decrees issued by the local Colombian authorities.

Standard	Description	Applicable period / Impact
IFRS 17 – Insurance Contracts, issued in May 2017	<p>New comprehensive standard for insurance contracts covering measurement, recognition, presentation, and disclosure.</p> <p>IFRS 17 replaced IFRS 4 and applies to all types of insurance contracts, regardless of the type of entities issuing them, as well as certain guarantees and financial instruments with discretionary participation features.</p> <p>The overall objective of the standard is to provide an accounting model for insurance contracts that is more useful and consistent for insurers. Unlike the requirements of IFRS 4, which primarily aimed at preserving previous local accounting policies, IFRS 17 offers a comprehensive model for these contracts, covering all relevant aspects.</p> <p>The essence of this standard is a general model supplemented by a specific adaptation for contracts with direct participation features (the variable fee approach) and a simplified approach (the premium allocation approach), mainly for short-duration contracts.</p>	<p>It was included in the Colombian accounting framework through Decree 1271 of October 15, 2024, which will be effective as of January 1, 2028. Grupo SURA is evaluating the impact of the application of this IFRS.</p>

The variation with respect to December 2025 corresponds mainly to the acquisition of new credits and the transfer of credit, referenced with (\*) in the tables above.

Includes \$1,999,302 with related parties (December 31, 2025 – \$2,016,928). See Note 34.3.

- (2) On December 5, 2025, Grupo SURA signed a credit agreement under the Club Deal modality with Banco Bilbao Vizcaya Argentaria S.A. New York Branch and J.P. Morgan Securities PLC for a committed value of USD 300,000,000, which was fully disbursed in December 2025. The loan payment term is 3 years, payable at maturity, and interest will be recognized based on the SOFR (3 months) +2, payable quarterly.

The movement of Club Deal is as follows:

	USD	\$
Balance as of December 31, 2025	300,000,000	1,122,310
Balance as of March 31, 2026	300,000,000	1,093,797

The variation is because of the change in the market exchange rate.

- (3) Includes \$47,246 (December 31, 2024 - \$51,480) with related parties (Note 34.3.).

As of March 31, 2026, and December 31, 2025, Grupo SURA did not have defaults on the payment of principal or interest.

### Note 6.2.2. Derivative financial instruments

The balance of derivative financial instruments is as follows:

	Note	March 31, 2026	December 31, 2025
Hedging derivative financial instruments	6.2.2.1.	187,874	152,755
Trading derivative financial instruments	6.2.2.2.	10,804	10,566

Current		20,600	29,554
Non-current		178,078	133,767

(1) The variation in the asset position compared to the previous period is basically because of the valuation of the instruments, mainly due to the change in the market exchange rate.

#### 6.2.2.1. Hedging derivative financial instruments

Grupo SURA accesses international markets to obtain effective funding sources. As part of this process, it assumes exposure to foreign currencies, mainly the U.S. dollar (USD). In accordance with its financial risk policy, Grupo SURA applies hedge accounting to mitigate the exchange rate risk due to variations in cash flows related to foreign currency obligations.

The foreign currency risk component is managed and mitigated using instruments such as swaps and cross-currency options, which exchange foreign currency payments for principal payments in the functional currency of the parent company and its subsidiaries in Mexico, Peru, and Chile. These instruments are applied to align with the maturity profile of the estimated payments of debt instruments.

Exchange rate risk is determined by the change in cash flows of foreign currency-denominated debt resulting from fluctuations in exchange rates for the corresponding swaps and foreign currency options. These changes represent a significant portion of the overall variations in the instrument's cash flow.

The effectiveness of these strategies is evaluated by comparing the changes in the fair value of swaps and cross-currency options with the changes in the hedged debt attributable to the exchange rate risk of the covered foreign currency obligations, using the symmetrical method of the key elements of the hedging instruments and the hedged items.

Grupo SURA establishes the hedge ratio by matching the notional value of the derivative with the principal amount of the point-in-time debt instrument being hedged. The potential sources of ineffectiveness are as follows:

- Differences in the timing of cash flows between debt instruments and hedging transactions.
- Differences in discounting between the hedged item and the hedging instrument.
- The hedging of derivatives with a fair value different from zero at the initial date of designation as hedging instruments; and
- Counterparty credit risk, which affects the fair value of uncollateralized hedging transactions but does not impact on the hedged items.
- The impact on the fair value of hedging instruments, caused by interest rate movements and volatilities of these instruments.

As of March 31, 2026, all hedging derivative financial instruments are effective.

### Parent company operations

#### Issued bonds

Since 2021, the parent company has implemented cash flow hedge accounting for the issued bonds in 2016 (Note 6.2.4.).

Following the initial designation, modifications have been made to improve the range of coverage for the hedged portion, which has limited coverage over USD 255,000,000.

As of March 31, 2026, and after the modifications were implemented, the parent company uses the following hedging instruments:

- Nine principal-only cross currency swap (principal only CCS).
- Two call spread structures (call option bought + call option sold).
- Five call spread structures (call option bought + call option sold), the purpose of which is to widen the hedging range.
- Two seagull structures (call option bought + call option sold + put option sold), whose purpose is to widen the hedging range of the two call spread structures.
- Seven out-of-the-money call options sold that are part of the structure and are included in the CCS contracts.

In this set of structures, the parent company acquires the right to receive USD 300,000,000 at maturity and semi-annual flows in USD at a fixed rate of 0% NASV; and in consideration it is obliged to pay an agreed amount and a specific fixed rate in COP in each of the derivatives that make up the structure.

According to the hedging strategies, the parent company has decided to record the time value of the options and swaps in other comprehensive income and amortize it systematically to income over the term of the hedges.

#### Club Deal loan

For the USD 300,000,000 Club Deal loan signed on December 5, 2025, has seven principal-only cross-currency swaps (principal-only CCS) as a hedge accounting for USD 296,000,000.

The nominal and fair values for each type of hedging derivative financial instrument are as follows:

	March 31, 2026		December 31, 2025	
	Nominal value (*)	Fair value	Nominal value (*)	Fair value
<b>Asset</b>				
Cross currency swap	132,669	12,043	132,669	17,413

<b>Total liability</b>	<b>1,050,169</b>	<b>108,929</b>	<b>1,050,169</b>	<b>69,094</b>

(\*) The nominal value of CCS and forwards corresponds to the amount hedged in foreign currency multiplied by the hedging rate and in the case of options, the amount hedged/exposed by the exercise value of the option.

## CONSOLIDATED FINANCIAL STATEMENTS

### Operations through subsidiaries

- (1) On May 6, 2025, subsidiary Sura Asset Management S.A. issued USD 500,000,000 senior bonds, maturing in 2032 and with an annual coupon of 6.35%, payable semi-annually.

These bonds were issued under Regulation S and Rule 144A under the United States Securities Act of 1933, are listed on the Luxembourg Stock Exchange for trading on the EuroMTF market and are guaranteed by Sura Asset Management Chile S.A. and Sura Asset Management México S.A. de C.V., subsidiaries of Sura Asset Management S.A.

Since June 2025, this subsidiary implemented cash flow hedge accounting to protect against the above obligation against foreign exchange risks of USD 500,000,000, corresponding to 100% of the principal obligation, with the following transactions maturing on the same date as the principal:

- Swap in which USD 125,000,000 is received and \$517,500 is paid, plus a fixed interest rate of 5.63%.
- Swap in which USD 150,000,000 is received and MXN 2,865,000,000 (Mexican pesos) is paid, plus a fixed interest rate of 3.71%.
- Swap in which USD 150,000,000 is received and CLP 140,100,000,000 (Chilean pesos) is paid, plus a fixed interest rate of 1.01%; and
- Swap in which USD 75,000,000 is received and PEN 275,250,000 (Peruvian soles) is paid, plus a fixed interest rate of 1.60%.

The net investment strategy abroad was implemented to hedge against exchange rate risk exposure related to investments in subsidiaries in Mexico, Peru, and Chile, with the objective of reducing exposure to the currencies of those countries.

The following is the detail of the net investment hedges on bonds issued in May 2025 maturing in 2032:

Country	Currency	Subsidiary of Sura Asset Management S.A.	March 31, 2026		December 31, 2025	
			Investment value	Hedged value	Investment value	Hedged value
Chile	CLP	Sura Asset Management Chile S.A.	3,633,047	550,494	4,740,402	563,562
México	MXN	Sura Asset Management México S.A. de C.V.	3,348,038	550,494	3,282,059	563,562
Perú	PEN	Sura Asset Management Perú S.A.	2,203,603	275,247	2,441,589	281,781

As of March 31, 2026, the effect of these transactions on other comprehensive income is \$71,670 (March 31, 2025 –\$21,700) (Note 22.).

- (2) The subsidiary Suramericana S.A. holds investments that back the technical reserves of its insurance operations. A percentage of these investments experience fair value changes due to exposure to foreign currency and/or interest rate risk. Therefore, hedge accounting is applied to mitigate the effects of exchange rate and interest rate fluctuations on these investments.

According to their hedging strategies, the last subsidiaries have decided to record the time value of options and swaps in other comprehensive income and systematically amortize it to profit or loss over the duration of the hedges.

(1) On April 29, 2016, Grupo de Inversiones Suramericana S.A. entered a foreign currency obligation for USD 550,000,000, with a single principal maturity on April 29, 2026, and a fixed interest rate of 5.50%, payable semiannually.

In 2022, USD 20,000,000 were repurchased.

On January 24, 2025, Grupo de Inversiones Suramericana S.A. repurchased USD 230,000,000 for its international bond maturing in 2026, transaction was carried out as part of the overall debt management and restructuring strategy.

As of March 31, 2026, the outstanding obligation amounts to USD 300,000,000 due to due to repurchases.

(2) On May 2025, subsidiary Sura Asset Management S.A. prepaid USD 175,000,000 of the international bond due in 2027.

(3) On May 6, 2025, the subsidiary Sura Asset Management S.A. issued USD 500,000,000 in senior bonds maturing in 2032 with a 6.35% annual coupon, payable semiannually.

These bonds were issued under Regulation S and Rule 144A of the United States Securities Act of 1933, are listed on the Luxembourg Stock Exchange for trading on the EuroMTF market, and are guaranteed by Sura Asset Management Chile S.A. and Sura Asset Management México S.A. de C.V., subsidiaries of Sura Asset Management S.A.

This bond issuance was carried out as part of Sura Asset Management S.A.'s strategy. to refinance the bank loans taken out in 2024 and the corporate bonds maturing in 2027, allowing it to continue adequately managing its debt.

As of March 31, 2026, and December 31, 2025, Grupo SURA did not have defaults on the payment of principal or interest.

### Note 6.2.5. Commitments with non-controlling interests

Grupo de Inversiones Suramericana S.A., as the parent company of its subsidiaries Suramericana S.A. and Sura Asset Management S.A., has entered into agreements with non-controlling interests through which rules have been formalized for managing the participation of strategic partners in some of its subsidiaries. These agreements have established long-term relationships based on the mutual interest of sharing knowledge and business strategies in each of these subsidiaries, and they have been structured with the support of expert advisors in financial, legal, accounting, and tax matters, among others, in alignment with the strategic objectives defined by Grupo de Inversiones Suramericana S.A.

These agreements include corporate governance provisions, minimum shareholder retention periods, declarations, exit mechanisms and, in general, the usual clauses for this type of contract in companies not listed on the stock market, and may eventually generate future commitments.

The general terms of these agreements are as follows

**Note 6.2.5.1. Agreement with Münchener Rückversicherungs - Gesellschaft Aktiengesellschaft, also known as Münchener Rück AG, or Munich Re (hereinafter "MRE") as shareholder of the subsidiary Suramericana S.A., holder of an 18.87% equity interest in such subsidiary.**

The agreement, originally signed in 2001 and amended in 2007 and 2010, establishes, among other provisions, mechanisms by which an eventual divestment of MRE would be implemented. The contract establishes an option whereby MRE can sell its 18.87% equity interest in Suramericana S.A. to Grupo de Inversiones Suramericana S.A.; the price for this stake would be determined by an independent third party using commonly accepted valuation methodologies to establish the fair market value of a minority investment. The option may only be exercised between March 1 and March 31 of each year. As of March 31, 2026, the option did not exercise.

As of March 31, 2026, the fair value of the option is recognized as a liability amounting to \$1,792,276 (December 31, 2025 – \$1,778,575).

**Note 6.2.5.2. Agreement with Caisse De Dépôt Et Placement Du Québec (hereinafter "CDPQ") as shareholder in the subsidiary Sura Asset Management S.A., holder of a 6.68% equity interest in said subsidiary.**

Valid since 2019, amended in 2022 and 2024, with the last amendment establishing that Grupo de Inversiones Suramericana S.A. may, during the period between February and May 2025, sell up to 3.3% of the shares of the subsidiary Sura Asset Management S.A., without exceeding a total CDPQ participation of 9.9%, at fair market value, which will be determined by independent third parties. As of May 31, 2025, the sale did not make and the possibility of doing has finished.

In addition, this agreement establishes the mechanisms by which an eventual divestment by CDPQ would be implemented, starting in April 2029, once the agreed retention period has ended. The agreement establishes that, after April 2029, as long as Sura Asset Management S.A. has not been listed on a recognized stock exchange or securities market and CDPQ has not executed a sale to a third party, CDPQ may sell its shares in Sura Asset Management S.A. to Grupo de Inversiones Suramericana S.A. at fair market value, which will be determined by independent third parties and paid in cash or with equity instruments, at the discretion of Grupo de Inversiones Suramericana S.A., applying in all cases the corporate procedures required by Colombian law.

## CONSOLIDATED FINANCIAL STATEMENTS

---

The fair value of the financial derivatives arising from this commitment is \$0, given that the exercise price and the underlying asset (the shares subject to the contract) are both at fair value.

As of March 31, 2026, shares to be issued from this commitment are 19,029,207 (March 31, 2025 - 26,794,334) Note 31.).

### Note 6.2.5.3. Balances and movements

The movement of the liability for commitments with non-controlling interests is as follows:

	Balance \$
<b>Balance as of December 31, 2024</b>	<b>1,572,007</b>
Revaluation of the commitment in the contract with MRE	206,568
<b>Balance as of December 31, 2025</b>	<b>1,778,575</b>
Revaluation of the commitment in the contract with MRE	13,701
<b>Balance as of March 31, 2026</b>	<b>1,792,276</b>

Valuations are prepared and reviewed periodically by qualified internal personnel and are compared with other accepted methodologies under international standards such as multiples of comparable companies and precedent transactions.

The estimated value of the commitments with non-controlling interests (MRE and CDPQ) was calculated based on the Dividend Discount Model discounted cash flow valuation methodology.

The most significant variables used in the calculation are as follows:

- Sum of shares of the main business units of the subsidiaries Sura Asset Management and Suramericana S.A.,
- Dividends discounted over a 10-year horizon,
- Projections based on the business plans of the companies,
- Discount rate based on Capital Asset Pricing Model (CAPM) methodology, and
- Macroeconomic assumptions according to the average expectation of market analysts.

On a quarterly basis, the estimate of commitments with non-controlling shareholders is updated with the discount rate, exchange rate and cash flow dates.

### Note 6.2.6. Covenants

#### Financial covenants

With the new credit agreement under the Club Deal modality, signed on December 5, 2025, Grupo SURA is subject to compliance with financial covenants as follows: leverage ratio of 5x (5 times received dividends) and interest coverage ratio of 1.5x. These covenants will be measured semi-annually on March 31 (as of December 31) and on August 31 (as of June 30) based on separate financial statements of Grupo de Inversiones Suramericana S.A.

Grupo SURA does not know facts or circumstances after December 31, 2025, that would indicate a possible breach of the financial covenants in the next measurement.

## CONSOLIDATED FINANCIAL STATEMENTS

The semi-annual measurement of the indicators with the balance as of December 31, 2025, is as follows:

### 1. Calculation of leverage ratio:

It is debt minus unrestricted cash, divided by received dividends.

The indebtedness as of determination date corresponds to the sum of the following items:

- (a) all obligations for borrowed money,
- (b) all purchase debts,
- (c) all obligations evidenced by bonds, promissory notes, loan agreements or other similar instruments,
- (d) all direct or contingent reimbursement obligations arising under letters of credit (including standby and commercial), bank acceptances, bank guaranties, surety bonds, performance bonds and similar instruments,
- (e) net obligations under any swap contract,
- (f) all obligations for purchase of property or services (other than trade accounts payable in the ordinary course of business and, in each case, not past due for more than 60 days after the date on which such trade account payable was created) and all obligations in connection with repurchase agreements (“repos”),
- (g) debts (excluding prepaid interest thereon) secured by a loan on properties (including debts arising under conditional sales or other title retention agreements), whether such debts shall have been assumed or have limited in recourse,
- (h) all attributable debts,
- (i) all guarantees related to any of the last items.

Concept	\$
Debt as of December 31, 2025:	
Obligations for borrowed money	7,248,246
Net obligations under any swap contract	(86,419)
Total debt as of December 31, 2025 (1)	7,161,827
Unrestricted cash as of December 31, 2025 (2)	7,649
Total debt, minus, unrestricted cash as of December 31, 2025 (1) – (2).	7,154,178
Received dividends during January 1, 2025, and December 31, 2025 (3).	2,286,112
Total debt, minus, unrestricted cash as of December 31, 2025 / Received dividends during January 1, 2025, and December 31, 2025. (1) – (2) / (3).	3.13

### 2. Calculation of interest coverage ratio:

It is received dividends divided by the result of the cash interest expense, minus, interest income, plus, net costs under swap contracts related to interest rates and foreign exchange.

Concept	\$
Received dividends during January 1, 2025, and December 31, 2025 (1)	2,286,112
Total cash interest expense during January 1, 2025, and December 31, 2025 (2)	785,846
Interest income during January 1, 2025, and December 31, 2025 (3)	13,947
Net costs under swap contracts related to interest rates and foreign exchange during January 1, 2025, and December 31, 2025 (4)	85,297
Total (2) – (3) + (4)	857,196
Received dividends during January 1, 2025, and December 31, 2025 / sum of total cash interest expense, minus, interest income, plus Net costs under swap contracts related to interest rates and foreign exchange during January 1, 2025, and December 31, 2025. (1) / (2) - (3) + (4).	2.67

## CONSOLIDATED FINANCIAL STATEMENTS

### Non-financial covenants

Grupo SURA is subject to compliance with certain non-financial covenants, which were fulfilled as of March 31, 2026.

#### a. Financial liabilities

The loans with local banks are subject to standard acceleration events for treasury loans, including among others, changes of control.

#### b. Club Deal

This credit agreement includes restrictions on granting guarantees, guidelines to be followed in case of corporate reorganizations, prepayment rules in the event of asset disposals, and international debt issuances, as well as restrictions on the payment of dividends to shareholders in the event of a continued default under the loan, among others.

#### c. Bonds

The commitments associated with these bonds include repurchase obligations in the event of a change of control, restrictions on the granting of guarantees, and guidelines to be observed in the case of corporate reorganizations, among others.

## NOTE 7. INSURANCE CONTRACTS

### Note 7.1. Insurance contract assets

The balance of insurance contract assets, representing the insurance companies' portfolio, is as follows:

	March 31, 2026	December 31, 2025
Direct insurance	4,633,098	4,834,202
Accepted coinsurance	124,863	154,548
Other	509,277	431,906
<b>Insurance contract assets (1) (2)</b>	<b>5,267,238</b>	<b>5,420,656</b>

(1) The decrease in insurance contract assets is mainly explained by a reduction in premiums receivable associated with the operating cycle of the business, primarily in Seguros Generales Suramericana S.A. (Chile), where declines were recorded in mortgage loan portfolios.

(2) Includes \$12,548 with related parties (December 31, 2025 - \$50,193). See Note 34.3.

**Nota 7.2. Reinsurance contract assets**

The balance of reinsurance contract assets is as follows:

	March 31, 2026	December 31, 2025
Participation in insurance liabilities for reported but unpaid claims	2,399,467	2,181,680
Unearned ceded premium reserves	2,295,161	2,519,190
Incurred but not reported (IBNR) claim reserves	538,834	488,431
Reinsurer deposits	324	760
<b>Total reinsurance reserves (1)</b>	<b>5,233,786</b>	<b>5,190,061</b>
Current accounts with reinsurers	1,203,510	776,896
<b>Total reinsurance contract assets (2)</b>	<b>6,437,296</b>	<b>5,966,957</b>
Current	1,206,229	779,844
Non-current	5,231,067	5,187,113

(1) The changes in reinsurance reserves are as follows:

	Balance \$
<b>Balance as of December 31, 2024</b>	<b>5,531,447</b>
Changes in estimated insurance contract liabilities	(73,562)
Exchange rate effects	(267,824)
<b>Balance as of December 31, 2025</b>	<b>5,190,061</b>
Changes in estimated insurance contract liabilities	126,843
Exchange rate effects	(83,118)
<b>Balance as of March 31, 2026</b>	<b>5,233,786</b>

(2) The variation is mainly explained by the increase in the reinsurer's participation in claims reserves of Seguros Generales Suramericana S.A., particularly in reported and incurred but not reported (IBNR) claims, because of a higher level of claims assumed.

Grupo SURA maintains a diversified insurance risk portfolio by operating across various business lines and maintaining a strong presence in international markets. Additionally, it implements a system of procedures and limits to control the concentration of insurance risk. The use of reinsurance contracts is a standard practice, serving as a risk-mitigation tool for exposures or accumulations that exceed the company's maximum acceptance thresholds.

Grupo SURA has transferred part of the risk associated with its insurance contracts to reinsurance companies to share potential claims that may arise.

**Note 7.3. Earned premium income**

The value of net premium income is as follows:

	January 1 to March 31, 2026	January 1 to March 31, 2025
Life insurance contracts	3,363,237	3,247,817
Non-life insurance contracts	2,249,303	2,322,292
<b>Written premiums</b>	<b>5,612,540</b>	<b>5,570,109</b>
Life insurance contracts – reinsurer’s share	(43,237)	(40,373)
Non-life insurance contracts – reinsurer’s share	(839,426)	(858,066)
<b>Ceded reinsurance premiums</b>	<b>(882,663)</b>	<b>(898,439)</b>
<b>Total net retained premium income</b>	<b>4,729,877</b>	<b>4,671,670</b>
Life insurance contract reserves	(487,993)	(678,297)
Non-life insurance contract reserves	(59,294)	68,271
<b>Net underwriting reserves</b>	<b>(547,287)</b>	<b>(610,026)</b>
<b>Total earned net retained premium income (1) (2)</b>	<b>4,182,590</b>	<b>4,061,644</b>

(1) The increase in total earned retained premium income is mainly by Seguros de Vida Suramericana S.A. (Colombia), primarily within the health line of business, associated with the growth of the *Sura a tu Medida* segment. Additionally, in occupational risk an 18.8% increase in premiums was observed, driven by the increase in the contribution base income (*IBC – Ingreso Base de Cotización, in Spanish Original*) resulting from the minimum salary adjustment, as well as a 4.45% increase in exposures, considering that the full impact of the IBC increase has not yet been fully realized.

(2) Includes insurance premium income of \$370,977 with related parties (March 31, 2025 – \$243,331). See Note 34.2.

**Note 7.4. Insurance contract liabilities**

The balance of insurance contract liabilities, representing technical reserves, is as follows:

	March 31, 2026	December 31, 2025
Insurance activity payables (Note 7.4.1.)	1,201,898	1,222,446
Estimated insurance contract liabilities (Note 7.4.2.)	48,595,955	47,821,554

### Note 7.4.2. Estimated insurance contract liabilities (technical reserves)

The balance of estimated insurance contract liabilities (technical reserves) is as follows:

	March 31, 2026	December 31, 2025
Actuarial liability	23,390,528	22,982,575
Estimated unearned premium liabilities	10,944,295	11,272,794
Estimated reported claims liabilities	7,062,478	6,582,213
Estimated incurred but not reported (IBNR) claims liabilities	6,663,436	6,419,950
Estimated special liabilities	135,931	161,046
Other estimated insurance contract liabilities	399,287	402,976
<b>Total (1)</b>	<b>48,595,955</b>	<b>47,821,554</b>

(1) The increase in estimated insurance contract liabilities is mainly explained by Seguros de Vida Suramericana S.A. (Colombia), associated with higher production in lines of business such as health and individual life, as well as an increase in the mathematical reserve, influenced by the adjustment to the minimum salary.

Grupo SURA considers premium sufficiency a key element, and its determination is supported by specialized software applications.

The treatment of benefits and the adequacy of provisions are fundamental principles of insurance management. Technical provisions are estimated by actuarial teams across different countries.

The movement of estimated insurance contract liabilities (technical reserves) is as follows:

	Balance \$

**Note 8.5. Uncertainty regarding income tax treatments**

Considering the criteria and judgments in the determination and recognition of taxes, as of March 31, 2026, Grupo SURA have been identified the following situations that generate tax uncertainties and should be recognized for accounting purposes according to the framework defined by IFRIC 23:

- The subsidiary Seguros de Vida Suramericana S.A. is currently in a tax dispute with the National Tax and Customs Directorate (*Dirección de Impuestos y Aduanas Nacionales- DIAN, in Spanish original*) in Colombia, concerning the application of exempt income for the 2017 tax year. On January 15, 2024, the subsidiary filed a nullity action and a claim for the restoration of rights against the liquidation resolution issued by DIAN. According to the external lawyers representing the case, the likelihood of success in the judicial process is 70%, and therefore, no provision has been recognized in connection with this case.
- A similar situation is presented in the same subsidiary for the 2018 tax year income tax return, which is currently awaiting the first instance ruling by the Administrative Court of Antioquia (*Tribunal Administrativo de Antioquia in Spanish original*). The probability of success is estimated at 70%, and likewise, no provision has been recognized in connection with this case.

No additional situations have been identified that generate tax uncertainties and that should be recognized for accounting purposes according to the framework defined by IFRIC 23.

As of March 31, 2026, external factors beyond the control of the subsidiary's management, related to the conditions of the real estate project to be developed on the property, have prevented the sale from being completed. Some of these external factors include:

- The partial development plan is still in the process of being obtained,
- The construction license for Torre 1 of the real estate project and the approval of the construction loan for said tower is still in process; and
- The urban planning license required for the development of the real estate project is still pending.

Despite these ongoing processes on the part of the buyer, the subsidiary remains committed to the sale of this asset, which will be finished in next 12 months.

## CONSOLIDATED FINANCIAL STATEMENTS

---

As of March 31, 2026, fair value of this asset was not determined, because as of December 31, 2025, it has been determined in accordance with the valuation performed by independent third parties, as established by IFRS 5; based on this valuation, the book value of \$38,846 remains.

(b) Arus S.A.S.

In November 2025, part of the asset was sold. As a result of the sale, the asset is no longer under control, and the new ownership percentage is 48.23%. Subject to the fulfillment of certain conditions, this remaining percentage is estimated to be transferred during 2026.

## CONSOLIDATED FINANCIAL STATEMENTS

---

In June 2023, the decision was made to liquidate the company. In July 2025, the dissolution agreement and the appointment of liquidators were registered in the Registro de Comercio (*In Spanish original*), thus beginning the liquidation process, which was concluded in March 2026.

### NBM Innova S.A. de C.V. y NMB Innova S.A.S.

The Colombian subsidiary NBM Innova S.A.S. was incorporated in March 2020 with the aim of containing the new business exploration initiatives of its parent company Sura Asset Management S.A. It began operations with qiip and later began exploration operations for the “Arati business alliance” project.

The Mexican subsidiary NBM Innova S.A. de C.V. was incorporated in March 2018, and its main purpose was to operate the qiip platform, which had been developed in conjunction with the Colombian subsidiary NBM Innova S.A.S.

In 2023, the decision was made to orderly close the operation of these subsidiaries.

### Disgely S.A.

In September 2025, it was decided to liquidate this company; its liquidation is expected to be completed in first semester of 2026.

### Sura Investment Management General Partner S.A.R.L.

Its principal function was to be a partner in a pre-operational alternative asset investment fund. In July 2024, the decision was made to liquidate this company and its liquidation concluded on December 20, 2024.

### Corredor de Bolsa Sura S.A. and Administradora de Fondos de Inversión S.A. Sura

On October 25, 2024, a preliminary agreement was signed with the third-party Latin Securities S.A., a stockbroker company domiciled in Uruguay, for the sale of all the shares of the subsidiaries Corredor de Bolsa Sura S.A. and Administradora de Fondos de Inversión S.A. Sura, subsidiaries dedicated to the management of investment portfolios, consultancy and brokerage operations at both retail and institutional level. This operation will be subject to the approval of the Central Bank of Uruguay. These operations were sold in November 2025.

**NOTE 12. PROPERTY AND EQUIPMENT, NET**

The balance of property and equipment, net of accumulated depreciation and impairment, is as follows:

	March 31, 2026	December 31, 2025
Land	408,276	411,212
Buildings	751,173	759,769

Leasehold improvements	138	47
<b>Total property and equipment, net</b>	<b>1,447,663</b>	<b>1,473,193</b>

Assets under construction represent those assets currently in the construction process that have not yet met the conditions for use as expected by Grupo SURA's management. These assets are not financed by third parties, and therefore, no borrowing costs are capitalized.

The cost of property and equipment does not include estimates for dismantling costs or similar expenses, as Grupo SURA's evaluation and analysis determined that there are no contractual or legal obligations requiring such estimates at the time of acquisition.

Additionally,

- No significant changes in value are expected due to adverse circumstances affecting Grupo SURA,
- There is no evidence of obsolescence or physical deterioration of the assets, and
- No immediate changes in asset use are expected that could negatively impact Grupo SURA.

## CONSOLIDATED FINANCIAL STATEMENTS

---

Property and equipment do not have residual values that would affect their depreciable amounts.

There are no restrictions associated with property and equipment.

### Revaluation of land and buildings

Grupo SURA applies the revaluation model to measure land and buildings, based on valuations conducted by independent third parties. These valuations are determined using quoted prices in active markets, adjusted for differences in nature, location, and/or condition of the specific property.

## NOTE 13. LEASES

### Note 13.1. Right-of-use assets

Grupo SURA holds right-of-use assets arising from lease agreements for buildings, with terms ranging from 3 to 12 years, as well as transportation equipment and other assets, with lease terms between 3 and 7 years.

Some lease agreements include extension and early termination options, as well as leases with variable payments.

There are generally no restrictions on subleasing leased assets.

Grupo SURA applies the short-term lease exemption to leases with a term of 12 months or less from the commencement date that does not include a purchase option. It also applies the low-value asset lease exemption to leases classified as low value, such as furniture, fixtures, IT equipment, and office equipment. Lease payments for short-term leases and low-value asset leases are recognized as expenses on a straight-line basis over the lease term.

There are no residual value guarantees, restrictions, or obligations imposed by the leases.

The balance in right-of-use assets, net of accumulated depreciation and impairment losses, for each class of underlying assets is as follows:

	Buildings	Transportation equipment	IT equipment	Improvements to third-party properties	medical equipment	Total
Balance as of March 31, 2026	339,969	6,471	2,949	50,612	60	400,061

<b>Total</b>	<b>4,889,347</b>	<b>5,095,011</b>

(1) Decrease is mainly due to exchange differences.

Goodwill has an indefinite useful life due to Grupo SURA's considerations regarding its intended use; therefore, it is not amortized.

#### Impairment of Goodwill

As of March 31, 2026, Grupo SURA did not conduct an impairment test on goodwill, since the annual test to determine their recoverable value for impairment testing purposes was performed on December 31, 2025, and is duly disclosed in the financial statements presented at the close of that year.

<b>Total employee benefits</b>		<b>705,528</b>	<b>860,777</b>

### Note 16.1. Short-term benefits

Short-term benefits correspond to salaries, legal and extra-legal bonuses, vacations, severance payments and parafiscal contributions (except pension fund contributions) that are paid within 12 months after the end of the period.

Additionally, short-term benefits include performance compensation, which acknowledges the contributions of all employees in achieving the goals and generating continued value to Grupo SURA. This benefit is defined by a framework of clear, measurable, and achievable performance indicators, which are established at the beginning of each year. These indicators must align with Grupo SURA's strategic direction, as well as with the activities and skills necessary to meet the objectives. The key components of this benefit include the measurement period, evaluation framework, monitoring and adjustments, and the definition of the indicators.

The balance of short-term benefits is as follows:

### Note 16.2. Long-term benefits

Long-term benefits correspond to seniority premiums, long-term bonuses, retroactive severance payments paid by Grupo SURA and extra-legal productivity bonuses.

The long-term benefits are described below:

- Seniority bonus: A benefit granted to employees associated with their time at work and every time they complete five years of service; it is calculated as days of salary per year worked.
- Long-term bonus. To qualify for this benefit, Grupo SURA must meet the conditions of accumulated value generation over three consecutive years, with the evaluation period beginning in 2020. This benefit will be paid in a single cash payment to employees starting in the year following the annual period in which the achievement of both short- and long-term goals has directly generated a sustainable return exceeding Grupo SURA's cost of capital over the past three years.

## CONSOLIDATED FINANCIAL STATEMENTS

---

- Retroactive Severance Payments Payable by Grupo SURA. In accordance with Colombian labor regulations, employees hired before the enactment of Law 50 of 1990 are entitled to receive, upon termination of their employment contract, one month's salary per year of service, plus a proportional amount for any partial year, as severance pay, regardless of the reason for termination, including retirement, disability, or death. This benefit is calculated at the time of the employee's departure, based on the last salary earned. Early withdrawals may be requested by the employee before their departure; however, these withdrawals are not mandatory for distribution.

With the enactment of Law 50 of 1990, the Colombian government allowed companies, subject to employee approval, to transfer their severance payment obligations to private pension and severance funds.

- Extra-legal productivity bonus for advisors: This benefit is granted upon reaching five-year service milestones, provided that the advisor has met the minimum commission averages established.

These benefits are valued annually using the projected credit unit method or whenever significant changes occur.

The balance of long-term benefits is as follows:

	March 31, 2026	December 31, 2025
Seniority bonus	62,030	61,821
Long-term bonus	23,536	24,265

### Note 16.3. Post-employment benefits

Grupo SURA has the following post-employment benefit plans:

- Severance bonus. Refers to one-time payment defined by Grupo SURA, payable to employees at the time of retirement.
- Retirement bonus: A benefit paid to an employee after completing their employment period. A bonus equivalent to 20 legal minimum monthly salaries will be granted, payable when the employee retires from Grupo SURA to enjoy their pension. This bonus is subject to legal withholdings. Employees with a special severance bonus regime will not be eligible for this benefit.

## CONSOLIDATED FINANCIAL STATEMENTS

- Retirement pensions. In Colombia, when employees retire after a certain number of years of age and service, retirement pensions are paid for by public or private pension funds based on defined contribution plans where companies and employees contribute monthly amounts defined by law to have access to the pension at the time of retirement. However, for some employees hired by Grupo SURA before 1968, who met the age and service requirements, pension payments are assumed directly by Grupo SURA. Grupo SURA has a legal or implicit obligation to cover pension benefits at its expense and requires actuarial calculations to recognize the defined benefit obligation, considering actuarial assumptions and estimating plan assets, if applicable; the net-defined benefit obligation must be determined by calculating any deficit or surplus in the obligation.
- Medical benefits. Grupo SURA provides fully insured medical benefits to all employees and eligible dependents. Health legislation, Law 9656 of 1998, guarantees the right of employees (and their beneficiaries) who have contributed to medical premiums to extend medical coverage into retirement or in cases of involuntary termination.
- Seniority bonus: A one-time payment equivalent to twelve days of salary for each year of service, paid to Mexican employees who voluntarily leave their jobs, provided they have completed at least fifteen years of service. This bonus is also paid to employees who resign for just cause and to those dismissed, regardless of whether the termination was justified or unjustified.

The balance of post-employment benefits is as follows:

	March 31, 2026	December 31, 2025

### Note 17.2. Contingent liabilities

As of March 31, 2026, and December 31, 2025, there are no significant contingent liabilities to be disclosed that could represent material contingent obligations for Grupo SURA.

### Note 17.3. Contingent assets

On August 14, 2023, the subsidiary Suramericana S.A completed the sale of its direct shareholding in Seguros Sura S.A. and indirect shareholding in Seguros Sura S.A. and Seguros de Personas S.A., both companies domiciled in El Salvador, for an initial price of USD 45,000,000.

The purchase agreement establishes that the buyer must recognize in favor of Suramericana S.A. an additional contingent income of up to USD 9,711,296, to be paid in 4 equal annual installments, starting from the signing of the purchase agreement, provided that on the date of payment of each of the corresponding installments the "Banco Agrícola Contract" remains in force with the same terms and conditions as at the signing the purchase agreement.

## CONSOLIDATED FINANCIAL STATEMENTS

---

From 2024 to 2025, Suramericana S.A. recognized as a revenue and received the portion corresponding to the tow installment of this contingent income of USD 4,855,648.

As of March 31, 2026, the contractual criteria have not been met, and it depends on the validity of the criteria for each of the annual periods for the next two years.

Due to the uncertainty associated with the fulfillment of contractual milestones for the next years, Suramericana S.A. has not recognized any asset related to this possible income.

### Note 17.4. Warranties

#### Commitments acquired by the subsidiaries

The subsidiaries Ayudas Diagnósticas Sura S.A.S. and Servicios Generales Suramericana S.A.S. have acquired commitments in the lease agreements made by Vaxthera Zona Franca S.A.S., subsidiary of the joint venture Vaxthera S.A.S.

The following commitments are intended to ensure compliance with the financial clauses corresponding to the lease agreements.

- Maintain, at least, 50% participation in the share capital of Vaxthera S.A.S.
- Negative voting to the distribution and/or payment of profits or dividends from the profit of the grace period provide for the lease agreement. After these grace periods, the subsidiaries can vote positively to the distribution and/or payment of profits or dividends if Free cash flow/Debt service is equal to or less than 1.2x.

### NOTE 19. PREFERRED SHARES LIABILITIES

On November 29, 2011, the issuance of 106,334,963 preferred shares was carried out at a subscription price of COP 32,500 each. From the issuance date and for three years, a quarterly dividend of 3% per annum was paid on the value of the issuance. Starting in 2015 and until March 2017, according with the approval of General Meeting of Shareholders, a quarterly dividend of 0.5% per annum was paid on the issuance price.

On March 31, 2017, the General Assembly of Shareholders approved the amendments to the regulations for the issuance and placement of preferred shares issued in 2011, which establish the payment of a minimum preferred dividend equivalent to 1% per year based on the subscription price, set at COP 35,973, provided that the amount resulting from this calculation exceeds the dividend declared for ordinary shares. Otherwise, the ordinary share dividend will be applied.

The former dividend will be paid in preference to the dividend corresponding to the ordinary shares.

## CONSOLIDATED FINANCIAL STATEMENTS

On March 31, 2017, the General Assembly of Shareholder approved the payment of dividends in preferred shares (6,605,325 shares), as the default payment method for ordinary and preferred shareholders who did not express their preference to receive their dividend in cash.

During 2021, 432,115 preferred shares were reacquired.

### NOTE 24. OPERATING SEGMENTS

#### Note 24.1. Reportable segments

The reportable segments of Grupo SURA that meet the definition of operating segments are (a) the parent company, which operates as a holding entity, as mentioned in Note 1, and (b) the two main subsidiaries, which function as consolidation groups. Additionally, there are some smaller segments, which primarily include service operations and the sale of products and services.

The decision-making authorities for the operating segments are the financial vice presidents of the two main subsidiaries that act as consolidation groups, as well as the financial vice president of the parent company, who are responsible for monitoring the operational results of the segments separately, making resource allocation decisions and assess performance based on operating results before taxes.

These operating segments manage the operations of the following activities:

*Holding, Grupo de Inversiones Suramericana S.A. - Investment management*

Acquisition and management of investments.

*Suramericana S.A. - Insurance management*

It includes companies engaged in risk coverage, responsible for guaranteeing or compensating all or part of the damage caused by the occurrence of certain accidental events.

Risk coverage includes the following:

- Life insurance, activities operated by companies responsible for covering risks related to individuals,
- Non-life insurance, activities operated by companies responsible for covering risks other than personal injury, and
- Health insurance, activities operated by companies responsible for providing mandatory and complementary health services.

## CONSOLIDATED FINANCIAL STATEMENTS

### Sura Asset Management S.A.

Includes companies dedicated to fund management, responsible for the administration of contributions made by employees to mandatory individual savings accounts and their voluntary contributions.

The activities include the following:

- Mandatory fund management, which involves the collection and administration of contributions made by employees to individual mandatory savings accounts, as well as the management and payment of benefits established by the pension system,
- Voluntary fund management, which focuses on voluntary pension savings, life annuities, and other related products, and
- Insurance and life annuities, which refers to risk management across different areas and the process of determining the appropriate pricing for such risk.

### Other minor segments

This category includes companies engaged in service provision and the commercialization of products and services related to information processing.

Additionally, other services that are not directly related to the company's core business strategy but complement the service offering are also included.

### **NOTE 32. FAIR VALUE**

The fair value of assets and financial liabilities traded in active markets, such as financial assets in debt securities, equity instruments, and derivative financial instruments actively traded on stock exchanges or interbank markets, is based on prices provided by a pricing vendor, calculated based on the average prices taken on the last trading day at the financial statement's end date.

The fair value of financial assets not traded in an active market is determined by using valuation techniques. Grupo SURA uses a variety of methods and makes assumptions based on market conditions existing at each reporting date. Valuation techniques include the use of recent comparable transactions under similar conditions, reference to other substantially identical instruments, discounted cash flow analysis, option pricing models, and other valuation techniques commonly used by market participants, making maximum use of market data.

Valuation techniques used for non-standard financial instruments, such as options, currency swaps, and over the counter (OTC) derivatives, include the use of interest rate or currency curves constructed by providers and extrapolated to the specific conditions of the instrument for valuation, discounted cash flow analysis, option pricing models, and other valuation techniques commonly used by market participants based primarily on market data rather than entity-specific data.

The result of a model is always an estimate or approximation of a value that cannot be determined with certainty, and the valuation techniques used may not fully reflect all relevant factors for Grupo SURA's positions. Therefore, valuations are adjusted, if necessary, to account for additional factors, including country risk, liquidity risk, and counterparty risk.

#### **Fair value hierarchy**

The judgments and estimates used to determine the fair values of financial instruments that are recognized and measured at fair value in the financial statements are as follows.

Grupo SURA uses data from the three levels specified by accounting standards:

- Level 1: Level 1 input data are quoted prices (unadjusted) in active markets for identical assets or liabilities that are accessible at the measurement date,
- Level 2: Level 2 input data are distinct from quoted prices included in Level 1, as they are observable for assets or liabilities, directly or indirectly, in inactive markets
- Level 3: Level 3 input data are unobservable inputs for the asset or liability.

The fair value hierarchy level within which the fair value measurement is classified in its entirety is determined based on the lowest-level input that is most significant for measuring its total fair value. The relevance of an input is evaluated in relation to the overall fair value measurement. Financial instruments traded in markets not considered active, but valued based on quoted market prices, price quotations from price providers, or alternative price sources supported by observable inputs, are classified in Level 2.

If a fair value measurement uses observable data that requires significant adjustments based on unobservable inputs, this measurement is classified as Level 3. Evaluating the significance of a particular input for the overall fair value measurement requires judgment, considering factors specific to the asset or liability.

Determining what is considered observable requires significant judgment by Grupo SURA. Observable data refers to market data that is already available, distributed, or updated by price providers, and is reliable and verifiable, free from proprietary rights, and provided by independent sources actively participating in the relevant market.

### **Note 32.1. Determination of fair value**

#### Investments measured at fair value through profit or loss

Grupo SURA assigns a price to its debt investments using prices provided by its official price provider and assigns the corresponding hierarchy level based on the procedure described above. For unlisted securities, such as certain bonds issued by other financial institutions, Grupo SURA generally determines fair value using standard internal valuation techniques. These techniques include determining future cash flows, which are discounted using applicable currency or interest rate curves, such as the Consumer Price Index (*Indice de Precios al Consumidor – IPC, in Spanish original*), adjusted with a credit and liquidity risk premium. The interest rate is typically determined using observable market data and benchmark yield curves obtained from quoted interest rates in appropriate time bands, aligning the timing of the cash flows with the maturities of the instruments.

#### Investments measured at fair value through other comprehensive income

Grupo SURA values its equity investments at market prices by applying the prices provided by its official price provider and assigns the corresponding hierarchy level based on the procedure described above. Similarly, the fair value of unlisted equity instruments is based on the individual evaluation of investments using methodologies that include publicly traded comparable, obtained by multiplying a key performance metric (such as earnings before interest, taxes, depreciation, and amortization) by the relevant valuation multiple observed for comparable companies and, if deemed necessary, subject to discounts for lack of liquidity and/or marketability.

Investments in mutual funds, trusts, and collective portfolios are valued based on the unit value calculated by the managing company.

For trusts holding investment properties, the unit value reflects the value of these properties, which is measured as outlined later in the investment properties section.

#### Derivative financial instruments

Grupo SURA maintains positions in standardized derivative instruments, such as futures on local stocks and the representative market exchange rate (*Tasa Representativa del mercado - TRM, in Spanish original*), which are valued using information provided by the official price provider. This valuation corresponds with the information supplied by the central counterparty clearing houses that settle and clear these instruments.

Additionally, Grupo SURA records positions in over the counter (OTC) derivative financial instruments, which, in the absence of prices, are valued using the inputs and methodologies provided by the price provider. Key inputs depend on the type of derivative financial instrument and the nature of the underlying instrument, and include yield curves, foreign exchange rates, the spot price (market price at a given moment) of the underlying volatility, and credit curves.

### Investment properties

Investment properties are valued by external experts, who use valuation techniques based on comparable prices, direct capitalization, discounted cash flows, and replacement cost.

#### Note 32.2. Fair value measurement on a recurring basis

The fair value of non-recurring assets is classified as Level 3 and determined using pricing models, discounted cash flow methodologies, current replacement cost, or similar techniques, utilizing either internal processes or external experts with sufficient experience and knowledge of the real estate market or the assets being valued. Generally, these valuations are carried out by referencing market data or based on replacement cost when sufficient market data is not available.

Grupo SURA presents investment properties under fair value assets on a non-recurring basis, which are classified under Level 3. The fair value of the investment properties is determined based on the valuation performed by independent external consultants with expertise and experience in performing valuations of the specific locations and types of assets being appraised.

The independent external consultants are accredited by the Real Estate Chamber of Colombia (*Lonja de Propiedad Raíz de Colombia, in Spanish original*). In cases where foreign independent external consultants are required, a second offer from Colombian independent external consultants, accredited by the Real Estate Chamber (*Lonja de Propiedad Raíz de Colombia, in Spanish original*), is obtained.

#### Note 32.3. Fair value measurement on a recurring basis

Fair value measurements on a recurring basis are those required or permitted in the financial statements at the end of each period.

(1) Debt securities at amortized cost, financial obligations, and finance lease liabilities

- Debt securities

The fair value of debt securities at amortized cost is determined using the price calculated by the pricing provider. Investments in an active market with a quoted market price on the valuation date are classified as Level 1. Investments without an active market and/or with an estimated price (present value of future cash flows discounted using the reference rate and the corresponding margin) calculated by the pricing provider are classified as Level 2.

- Financial obligations and finance lease liabilities

The fair value of these liabilities is determined by using discounted cash flow models. The projections of capital and interest cash flows are made in accordance with the contractual terms, considering the amortization of principal and accrued interest. These cash flows are then discounted using reference curves.

(2) For these accounts, the book value is considered like fair value due to their short-term nature and their methodology of measurement and recognition.

(3) The fair value of issued securities is determined based on quoted or estimated prices provided by the pricing provider. This valuation is classified as Level 2.

(4) The fair value is determined using prices supplied by a pricing provider when securities are traded in the stock market. For other equity investments that are not publicly traded, the value is measured in the same way as the carrying amount, as it is not feasible to perform a specialized valuation for them.

(5) The fair value of the preferred shares liability is determined using the TES curve. (TES, *Títulos de Tesorería*, in spanish original. Government debt securities issued by the Colombian government).

## NOTE 33. RISK MANAGEMENT

For Grupo SURA, risk management is a dynamic and interactive process that serves as a fundamental component of the strategy that supports decision-making. Understanding risks as opportunities, preparing for uncertainty, configuring new businesses, exploring geographies, enhancing talent, among other aspects, are essential parts of this management. This management model is consistent with the vision of risks as an investment manager, reaffirms the comprehensive approach to the aggregated risks of the portfolio, and enables conducting forward-looking risk analysis considering the correlation between them.

On December 31, 2025, Grupo SURA duly disclosed, in the financial statements presented at the end of this year, the information related to risk management based on the provisions specified in the policies prepared for this purpose. There are no changes in these policies during the period for three months ending on March 31, 2026.

Below are the key risks that Grupo SURA prioritizes and focuses on in its risk management framework:

1. Financial risk
  - 1.1. Credit risk management
    - Credit risk in treasury
    - Credit risk in investment portfolios
    - Credit risk in third-party asset management
    - Credit risk in accounts receivable
    - Risk of impairment of assets
  - 1.2. Market risks management
    - Market risk in treasury
    - Market risk in insurance portfolios
    - Exchange rate risk
    - Interest rate risk
    - Price variation risk in equities and real estate businesses
    - Volatility risk of the reserve requirement in pension businesses
  - 1.3. Liquidity risks
2. Business risks
  - 2.1. Management of non-financial risks in insurance companies
    - Premium risk
    - Reserve risk
    - Actual claims vs. previous estimates for insurance companies
    - Reinsurance risk
    - Catastrophic risk
    - Concentration risk
3. Risk management in pension fund administrators
  - 3.1. Business variable risks
  - 3.2. Minimum guaranteed return risks
  - 3.3. Volatility risk in the valuation of the deferred income provision
  - 3.4. Risk management in fund management companies and brokerage firms

## CONSOLIDATED FINANCIAL STATEMENTS

---

Below are the events and situations that the management of Grupo SURA believes are relevant to communicating with the different interest parties due to their potential impact on its risk situation:

### March 31, 2026

During the period ending March 31, 2026, cash flows were exposed to external conditions beyond the business, mainly associated with Colombia's political and economic environment. Nevertheless, Grupo SURA managed these conditions appropriately, maintaining resilient cash generation and healthy leverage, liquidity and solvency levels, which allows it to timely meet its obligations and preserve its financial flexibility.

#### Payment of taxes associated with extraordinary measures enacted by the Colombian Government

Within the framework of the provisions adopted by the Government of Colombia under the economic emergency context, Grupo SURA registered equity tax expense in amount of \$177,997, which represented cash outflows during the period of \$88,998.

#### Impact of interest rates on cash flow

Debt service was affected by the increase in interest rates in Colombia, in an environment of inflation still above the central bank's target range, and by local factors that have affected the perception of sovereign risk.

This environment increased Grupo Sura's financial cost and affected cash flow dynamics, considering that approximately 52% of Grupo Suramericana de Inversiones S.A.'s debt is indexed to the IBR rate and 17% to CPI (*Indice de Precios al Consumidor, in Spanish Original*). However, the same environment supports the generation of income from the businesses, which offsets and could even exceed higher financial cost. The net impact remains at manageable levels, and Grupo Sura's capital structure continues to adequately support its financial and operating commitments.

#### Impairment in the sovereign credit rating and its impact on credit risk

Since the last year, Colombia's fiscal position has impaired, as evidenced by credit rating downgrades by the main rating agencies. The country currently remains below investment grade, with ratings of BB (Fitch Ratings) and BB- (S&P Global Ratings).

From a credit risk standpoint, this environment has led to downward adjustments in the international ratings of certain local counterparties, consistent with the sovereign rating acting as a ceiling. Nevertheless, such counterparties continue to evidence solid local-scale credit profiles and remain within the limits established under the risk appetite, with no material impacts on current exposure.

From a liquidity perspective, this environment has translated into more stringent conditions on derivatives positions, particularly under collateral agreements, through higher margin requirements and lower thresholds for uncollateralized exposure. This has increased liquidity demand and required more active cash and liquidity management, with no material impact on the financial position identified to date.

### Exposure to the increase in the legal minimum monthly salary in Colombia for businesses in the pension system and occupational risks.

On December 31, 2025, the Colombian government issued Decree 1485, which established modifications to the minimum salary adjustment coverage mechanism (*deslizamiento del salario mínimo, in Spanish original*) established in Decree 036 of 2015 for the life annuities modalities under Law 100, in aspects such as the annuity registration cap, the adjustment coverage parameter, the State's payment terms, and the recognition of interest on the coverage. These modifications apply to annuities issued as of that date, except for the adjustment coverage payment and the recognition of interest in the coverage, which apply to all annuities already issued and future annuities.

As of March 31, 2026, Grupo SURA continues to assess the potential effects arising from the application and interpretation of Decree 1485 of 2025, considering the existing uncertainty associated with the judicial and regulatory processes currently underway. Depending on the evolution of such effects, the applicable regulatory criteria, and the definitions adopted by the competent authorities, future periods could see impacts on the technical reserves, provisions, and results of certain Grupo SURA subsidiaries.

Five nullity claims have been filed in the Council of State (*Consejo de Estado, in Spanish original*), of which three have been admitted, one was rejected, and one is under review. In relation to the claims admitted, the Council of State is reviewing requests for precautionary measures which, if approved, would suspend the application of this Decree pending a final decision on the claims filed.

#### Risk level

Based on the foregoing, Grupo SURA maintains a financial risk level within appropriate parameters and has the resources required to meet its obligations known as the reporting date

Independent advisors will make the transfer pricing study, as required by tax regulations, to demonstrate that the transactions with foreign related parties were conducted at market value during 2025. For this purpose, an informative declaration will be submitted, and study will be available in September 2026.

## NOTE 35. EVENTS AFTER THE REPORTING DATE

### Note 35.1. Refinancing of obligations and maturity of international bond

On April 23, 2026, the Grupo SURA received a disbursement of \$900,000 from the credit line committed to in 2025 with Banco Bilbao Vizcaya Argentaria S.A. (Colombia). The repayment term for the loan is 5 years from the disbursement date, with interest based on the IBR 3-month rate plus 2.20%, payable quarterly.

Subsequently, on April 29, 2026, these resources were used, together with the Grupo SURA's cash, to pay the international bonds issued on April 29, 2016.

### Note 35.2. Unconstitutionality of decrees 1390 and 1474 issued within the framework of the economic and social emergency of 2025

On April 9 and 15, 2026, the Constitutional Court issued rulings C-075 and C-079, respectively, declaring unconstitutional Decree 1390 of December 22, 2025, which declared a state of economic and social emergency, and Decree 1474 of December 29, 2025, which adopted tax measures to address the state of economic and social emergency. The Constitutional Court had already suspended these decrees on January 29, 2026.

Decree 1474 included among its measures the elimination of 15 additional points in the income tax rate for financial institutions, insurance and reinsurance entities, among others.

Grupo SURA assessed the impacts of these judicial decisions, which do not imply an adjustment in the financial statements as of March 31, 2026, and considered that the effect on the estimates for the recognition of the deferred tax expense would amount to approximately \$20,953.

## CONSOLIDATED FINANCIAL STATEMENTS
